China's Minister on Chinese Frauds.

He Writes Letter Accusing Congressman Denby of "Fertile Imagination."

Michigan Representative Says His Testimony About the Traffic was True.

Washington Excitedly Discussing the Latest Episode a la Sackville-West.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, April 16.—[Exclusive Dispatch.] If there was anything more necessary to seal the doom of Chinese-exclusion legislation, it was supplied by a letter from Sir Chentung Liang Chang, Chinese Minister to the United States.

attitude, but Denby is friendly to the Chinese, having lived in the Orient many years, while his father was Minister to China. Congressman Denby recently introduced a bill to modify the exclusion law. Its provisions are liberal along the lines recommended by the President, and it was proposed to use it as the basis for some legislation, but Minister Cheng's letter undoubtedly clinches the efforts of the California delegation to head off all legislation.

Referring to the matter, Minister Cheng wrote: "I consider the intimation of Mr. Denby that, but for the vigilance of immigration officers, there would have been a traffic in bringing in illegal Chinese which would have enriched thousands of officials, and our country would have been overrun with them, as if there had been no exclusion law, as an emanation from a fertile imagination, rather than trustworthy judgment founded on cold facts."

DENBY HITS BACK.
In reply, Representative Denby today dictated the following: "My statements were based on facts and fair inferences. Every assertion can be easily proved. The Minister's statement is painfully, though, I hope, unintentionally misleading. First, he says only 537 persons have received certificates from Chinese officials during the three years under review. The Immigration Bureau records show 895 applicants for admission bearing certificates signed by Chinese officials. If the Minister admits the 358 certificates not reported to him were fraudulent, he becomes the best witness to prove my assertion. Of 1345 section-6 certificates presented at American ports in the period mentioned, 895 were issued in China. Of 277 ejecutions in all, 246 bore certificates signed by Chinese officials, making 88 per cent. of rejections vouched for by Chinese officials. Doesn't this look suspicious?"

"Nobody wants cordial relations between China and the United States more than I, but this cannot be had by this country supinely and needlessly assuming all blame for the causes of irritation existing."

EXCITED DISCUSSION.
The government officials and Congressmen are excitedly discussing Cheng's letter. The consensus of opinion is that it is a breach of diplomatic etiquette which would warrant the recall of the Chinese Minister. Mr. Denby says he has no personal feeling in the matter, but the California delegation proposes to take it up. Either Representative Hayes or Mr. Kahn will introduce resolutions calling for the Chinese immigration figures, which they believe will prove their and Mr. Denby's assertions that gross frauds are practiced with the connivance of the Chinese government and so-called "high-class" Chinese.

FALSE WEIGHTS FOUND ON WESTERN ROADS.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, April 16.—[Exclusive Dispatch.] Demand has been made by the Western Weighing and Inspection Bureau, representing all railroads extending west from Chicago, on several big packing companies for money alleged to be due on account of false weights and false billings.

Similar demands are said to have been made by the eastern and western weighing bureaus on many of the big shippers at Chicago, and unless a settlement is made, it is expected there will be resorts to the courts.

The amount involved in the case of the packing companies is said to be between \$100,000 and \$150,000.

QUIET INVESTIGATION.

SHAKING THE DUST.

Castro's Bunch Off to Europe.

Venezuela's Get-Rich-Quick Crowd Makes an Almost Precipitate Flight.

Former President, Whose Family Is Scattered, May Also Go Abroad.

Natives Do Not Clearly Understand — Cabinet Is Out, Yet In.

(BY DIRECT WIRE TO THE TIMES.)
ILLEMSTAD (Curacao) April 16.—[Exclusive Dispatch.] A great sensation has been caused in Caracas, Venezuela, by the announcement of the engagement of passage for Europe by all of the retired President Castro's favorites, known as "the get-rich-quick crowd."

In fact, there is a precipitate flight of all the friends of the former administration. It is rumored that Castro may accompany his friends to Europe. This exodus began today with the departure of Dr. J. Torres Cardenas, general secretary of the government, and of Señor Corao, business agent, who left on the steamship Caracas for New York.

EDITORIAL AND OFFICIALS.

Señor Gumersindo Rivas, editor of the Constitutional, will follow, Thursday. Señor J. A. Velutini, second Vice-President; Señor Cecilio de Castro, Minister of Finance; Señor R. Tello Mendoza, Governor of the Federal District of Caracas, and others will also leave soon for Europe.

REST OR REFUGE?

All allege that they are going away for rest and recreation, but the fact is they fear that President Gomez will ask for large public loans, and that those who have been recently made rich by monopolies, and who have impoverished hundreds and caused industrial and financial depression, will be asked to contribute, with the alternative of going to prison.

CHANGE OF ATMOSPHERE.

Castro is in retirement at Los Teques. Illness is alleged to be the cause. Gen. Gomez is acting President. The new Ministerial appointments have been strangely delayed. At Caracas the political atmosphere has completely changed.

Opinions expressed here are conflicting. Venezuelans, as a rule, are reticent when questioned on the subject. They generally say that Gen. Castro is ill, and hesitate to give their opinion of his retirement from the Presidency. Passengers arriving here today from Venezuela say that the action of Gen. Castro in retiring from the Presidency in favor of Gen. Gomez is not clearly understood in Venezuela. But the general opinion seems to be that his retirement is only temporary.

Gen. Castro has gone one way, as a private citizen, unattended, and paying the regular fare on the railway. His wife has gone another way, and the former President's sister arrived here today.

The resignation of the Venezuela Cabinet is also causing speculation. The Ministers retired when Gen. Castro gave up the reins of power, but President Gomez has not appointed a new Cabinet, and therefore the old Ministers have retained their portfolios.

Subpoenas issued for several persons thought able to throw light on Hearst Conspiracy.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, April 16.—[Exclusive Dispatch.] Subpoenas were issued today for several persons who may be in a position to throw much light on the conspiracy back of the petition for Hearst's nomination which contained 5000 forged names and they will appear before the judge Wednesday morning.

In addition to learning who were behind the plot and bringing them before the bar, it is said some of the men who were elected to office after having been nominated by the forged petitions may also be indicted.

ARMY OF IMMIGRANTS.

All Records Broken By the Arrival of Over Eighteen Thousand Yesterday at New York.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, April 16.—[Exclusive Dispatch.] All records of the number of immigrants awaiting admission through Ellis Island at one time were broken today. Counting passengers who were discharged, those who will have to wait until tomorrow or Wednesday and those on steamships that arrived at quarantine before night, 15,835 aliens are in the harbor.

MISS GRANT SERIOUSLY ILL.

BOOKMAKER'S JUMP.

Frank Knight of Chicago Goes Through a Window at Forty Miles an Hour.

(BY DIRECT WIRE TO THE TIMES.)
KANSAS CITY (Mo.) April 16.—[Exclusive Dispatch.] Frank Knight of Chicago, a bookmaker, jumped through a window of the Union Pacific train at Campus, Kan., yesterday, while the train was running forty miles an hour, but was not killed. Knight was considered demented, and was being taken by C. E. Teavis, another bookmaker, from Oakland, Cal., to Chicago.

The train was stopped, and passengers searched for an hour for Knight before they found him in a place of concealment. He was brought to this city, and was placed in the care of the police. It was feared that if the journey was continued, he would jump from the train again. He will rest here several days, and receive medical attention.

White Man and Woman Held Up at Springfield—He Kills a Black.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, April 16.—[Exclusive Dispatch.] A wave of crime, involving two murders and attacks upon women, in which negroes figure prominently, is engaging the attention of the police of the South Side. Many arrests were made today. The South Side crime record for thirty-six hours shows:

Joseph Claret murdered by negro; throat slashed with razor; died near his home on Forty-third street.

William G. Mowbray, superintendent of postal sub-station at Roseland, shot down within two blocks of his home, motive, robbery.

Mrs. Josephine Higgins, Wentworth avenue, mistreated by five youthful ruffians.

Mrs. Hedwig Woydt, Indiana avenue, dragged into alley off Michigan avenue by negro; choked into insensibility; in serious condition.

Numerous stabbing affrays, and many Hyde Park women affronted by negroes.

It was at first believed that Claret was killed by burglars, but Robert Nelson, colored, who was arrested while running from the place of the killing, was identified, today, by Mrs. Claret as a man who had been beaten by her husband for insulting her and who had made a threat to get even.

WOMEN LEAD MOB.

Late this afternoon, a mob of 1000 persons, led by women, fought with the police at Mather and Halsted streets in an endeavor to lynch John Curiale, 25 years old, who had attacked a 9-year-old girl.

Tonight, Dr. Hannah Sparrow, a South Chicago woman physician, was brutally beaten and robbed by a footpad at Ninety-third and Elizabeth streets.

KILLING AT SPRINGFIELD.

WHITE MAN SHOTS NEGRO. (BY DIRECT WIRE TO THE TIMES.)
SPRINGFIELD (Mo.) April 16.—[Exclusive Dispatch.] At 11 o'clock tonight, a negro was shot and killed in the outskirts of the city by a white man whose name has not yet been learned.

The negro, with a companion, held up the white man and a young woman whom he was escorting home from the theater. They were passing a dark alley at the time, and the white man pushed the girl behind him, as one of the negroes fired at him.

The white man returned the fire, and shot one of the negroes dead. The other ran away.

The body of the dead negro was found by the police where it had fallen. It is feared that when details of this shooting gets out in the city, fresh trouble may be started.

MOB LEADERS ARRESTED.

(BY THE ASSOCIATED PRESS—P.M.)
SPRINGFIELD, April 16.—Four men are now under arrest here, charged with being leaders in the mob that broke into the County Jail Saturday night, and lynched three negroes. One of the alleged mob leaders is in jail, and three have been released on bail.

Charles Canefax and Onay Caffrey were the first arrested. Canefax has been a poolroom proprietor, but is at present employed in the St. Louis and San Francisco Railroad yards. Caffrey is a switchman for the same road.

San Crape, son of D. D. Crane, a well-known saddlery merchant, was the third arrested. Crane moves in the best society here. The three have been released on bonds. Oat Hall, the last man taken, is a Police Court character. Hall is still in jail.

Canefax went to harry Horner today, and inquired how much damage had been done by the mob on the Sheriff's property. Canefax was informed that it would amount to \$1000. He then said a collection would be taken up to repair the loss, but his offer was flatly refused by the Sheriff.

The grand jury will meet tomorrow morning, especially to indict those who were in the mob of lynchers.

JOKERS ARE UNEASY.

Up to noon today men who had been in the mob made no secret of it. They stood on the street corners and joked each other about it, but when word came that Gov. Folk had offered \$200 reward for the conviction of any member of the mob, and when Roscoe Patterson, prosecuting attorney, declared openly that he intended to work for the arrest and conviction of every man concerned in the lynching, there was uneasiness. At noon it became known that twenty-five warrants, charging murder in the first degree, were in the hands of the Sheriff. After the arrests the lynchers became alarmed, and left the streets. Before dark the square was deserted, and tonight it is absolutely quiet.

Around the jail are camped 300 soldiers, with guards out at every point.

Rate Bill Discussion Like a Wounded Snake.

Senator Teller Impatient to Hear the Rattles.

House Passes McKinlay Bill. Denaturalized Alcohol.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, April 16.—A speech on the Railroad Rate Bill by Mr. Hayden of Idaho in advocacy of his court-revenue amendment led to more than two hours' technical debate in the Senate today.

The Indian bill was taken up for committee amendments, but was not completed, and consideration of this measure will be resumed tomorrow.

Mr. Tillman of South Carolina, at opening of the session offered a resolution providing for an inquiry by the Committee on Finance as to contributions by national banks to campaign committees, and why funds concerning them had not been disclosed by the Controller of the Currency.

The rate bill was then laid aside, and the Indian Appropriation Bill was taken up.

Senator Hayden, speaking in support of amendments he had offered, granting the right of review of orders of the Interstate Commerce Commission on application of either party. The discussion was confined to legal and constitutional questions, and brought forth frequent interruptions by lawyers on both sides of the chamber.

SENATOR TELLER SPEAKS.

The Railroad Rate Bill was then taken up. Senator Hayden, speaking in support of amendments he had offered, granting the right of review of orders of the Interstate Commerce Commission on application of either party. The discussion was confined to legal and constitutional questions, and brought forth frequent interruptions by lawyers on both sides of the chamber.

SENATOR TELLER'S POINT.

Mr. Hayden concluded at 3:05 o'clock and Senator Teller said he thought the various amendments offered had been discussed long enough to show what the judicial review should be. He desired to hear from some one just what the differences are between those amendments.

The rate bill was then laid aside, and the Indian Appropriation Bill was taken up.

At 4:40 p.m. the Senate went into executive session, without concluding the reading of the committee amendments to the Indian bill. At 6 o'clock the Senate adjourned.

HOUSE PROCEEDINGS.

WASHINGTON, April 16.—Mr. Cullen of Kansas presented a concurrent resolution to correct the bill for the final settlement of the affairs of the Five Civilized Tribes. One amendment proposed, however, is to add a new article providing for a sale of all buildings now or heretofore used for governmental, school and tribal purposes.

Mr. DeArmond of Missouri opposed the resolution on the ground that legislation by resolution is dangerous. The rules were suspended and the resolution adopted.

NATIONAL BANK LOANS.

Mr. Shattell of Missouri called up the bill amending the revised statutes relating to national banks. National banks have heretofore been limited in making loans so that they could not loan to exceed 10 per cent. of their capital to any one individual.

Mr. Shattell called up the bill which Mr. Shattell called up adds the surplus to the capital stock for loan purposes, provided no loan shall exceed 10 per cent. of the capital stock.

INCREASES LENDING VOLUME.

Mr. Pujo of Louisiana said that "should this legislation be enacted, it would add to the legal lending volume about \$4,000,000,000, as the surplus is now some \$442,000,000. The bill was passed on a rising vote of 193 to 7.

SACRAMENTO DIVERSION.

The House passed a bill for the diversion of the waters of the Sacramento River in California, for irrigation purposes.

DENATURALIZED ALCOHOL.

The Denaturalized Alcohol Bill passed, by 223 to 7.

COLUMBIA RIVER IMPROVEMENT.

The House passed a bill appropriating \$100,000 for the improvement of the mouth of the Columbia River in Oregon and Washington.

COASTWISE LAWS.

The House passed a bill today extending the time for the collection of the duties of the United States Coast Guard to the Philippines until April 1, 1937.

WOMAN AND CHILD LABOR.

The bill authorizing the Secretary of Commerce and Labor to investigate and report upon the industrial, moral and educational conditions of female and child workers in the United States was made a privileged order in the House.

TRADE-MARKS.

The bill amending existing law relating to the registration of trademarks was passed. The bill creates classes of merchandise for the purpose of trade-mark registration.

GUARDS PRECIOUS METALS.

Mr. Ryan of New York called up the bill forbidding the importation and carriage in interstate commerce of falsely or of spuriously stamped articles of merchandise made of gold or silver or their alloy. Broadly stated, it requires persons manufacturing articles out of the precious metals to stamp these articles for what they really are. The bill was passed, 133 to 25.

QUARANTINE BILL.

Mr. Daves of Louisiana called up the National Quarantine Bill, seeking to substitute the Senate bill for the measure which recently passed the House. In order to get the measure into conference. The bill was read.

Feeling that debate was inevitable, Mr. Payne of New York, in order to continue the suspension day over to another day, moved that the House take a recess until 11:30 o'clock tomorrow. On the vote, the absence of a quorum was disclosed.

Speaker Cannon surprised the House by holding that 191 members constituted a quorum, and had read a prepared statement in which he took the ground that after the House is organized, a quorum consists of a majority of those members chosen, sworn and living, whose membership has not been terminated by resignation or by the action of the House. This ruling, the Speaker said, was justified by the fact that two members have died, and two Messrs. Patterson of Tennessee and Mr. Williams of Oregon, have not

WHITE HOUSE EGG-ROLLING.

HUNDREDS OF YOUNG PEOPLE ON THE BEAUTIFUL LAWNS.

Marine Band Gives a Concert and Thousands of People Are Attracted to the Grounds—Supreme Court in Session—Case With Human-Interest Features.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, April 16.—Easter Monday was celebrated in the White House grounds with the annual egg-rolling festival. Hundreds of young people from all parts of Washington, accompanied with a general sprinkling of grown-ups, congregated early on the beautiful lawns south of the Presidential mansion for their Easter frolic.

The egg-rolling continued on the White House grounds proper until 1 o'clock; then the sport was transferred to the great allées south of the grounds. There, during the afternoon, the Marine Band gave a concert for the benefit of the egg-rollers, their parents and escorts. Thousands of people availed themselves of the opportunity to hear the concert and enter into the Easter frolic of the children.

SUPREME COURT CASES.

ARIZONA WOMAN ADMITTED.

WASHINGTON, April 16.—The unusual spectacle of a father moving the admission of his daughter to practice in the Supreme Court of the United States was witnessed in that court today. The motion was made by Attorney William Herring in behalf of his daughter, Sarah Herring Sorin of Tucson, Ariz.

Mr. Sorin made a statement of the twenty-fifth woman admitted to practice in the court. Mrs. Belva Lockwood, the first woman ever admitted to practice in the court, was present when the motion was made in Mrs. Sorin's behalf.

HADDOCK DIVORCE CASE.

In an opinion by Justice White, the court decided the case of John W. Haddock vs. Harriet Haddock, a divorce proceeding instituted in the courts of New York City, in favor of the wife.

The Haddocks were married in 1882, and the husband is claimed to have been an unwilling participant in the divorce proceeding. The divorce was granted by the New York court, and the husband is claimed to have been an unwilling participant in the divorce proceeding.

A GENERAL PRINCIPLE.

Justice White, in deciding the case, laid down the general principle that a State in which only one party to a divorce proceeding resides has no right to dissolve a marriage which all other States must respect.

Justices Harlan, Brewer and Brown united in dissenting opinions, which were delivered by Justice Brown. They took the position that the Connecticut divorce proceeding was regular, and is entitled to due credence in other States.

Justice Brown declared, in his opinion, the court had taken a backward step.

BAD FOR MANY CHILDREN.

Justice Holmes also dissented from the decision of the court, but delivered an independent opinion. He said the result of the decision would be to illegitimize many children, but added that he would not go so far as to predict that civilization would come to an end, whatever the conclusion in the case.

MOTION IN IDAHO CASE.

Attorney Edmund P. Richardson of Denver entered a motion to advance the hearing in the case of Charles H. Meyer, William D. Haywood and Anthony J. Pettibone, all charged with the assassination of Governor Steiensen of that State. He informed the court that the men were virtually kidnapped in Colorado by the collusion of the Governor of that State with the Governor of Idaho.

The court took the motion under advisement.

PATTERSON ON HIS MERITS.

In the case of the People of Colorado vs. United States Senator Patterson, a proceeding against the Senator on the charge of contempt for the State Supreme Court, the Supreme Court of the United States issued an order today, postponing the motion to dismiss or affirm, issued by the State court, until the case is heard on its merits.

Rate Bill Discussion Like a Wounded Snake.

Senator Teller Impatient to Hear the Rattles.

House Passes McKinlay Bill. Denaturalized Alcohol.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, April 16.—A speech on the Railroad Rate Bill by Mr. Hayden of Idaho in advocacy of his court-revenue amendment led to more than two hours' technical debate in the Senate today.

The Indian bill was taken up for committee amendments, but was not completed, and consideration of this measure will be resumed tomorrow.

Mr. Tillman of South Carolina, at opening of the session offered a resolution providing for an inquiry by the Committee on Finance as to contributions by national banks to campaign committees, and why funds concerning them had not been disclosed by the Controller of the Currency.

The rate bill was then laid aside, and the Indian Appropriation Bill was taken up.

Senator Hayden, speaking in support of amendments he had offered, granting the right of review of orders of the Interstate Commerce Commission on application of either party. The discussion was confined to legal and constitutional questions, and brought forth frequent interruptions by lawyers on both sides of the chamber.

SENATOR TELLER SPEAKS.

Senator Hayden, speaking in support of amendments he had offered, granting the right of review of orders of the Interstate Commerce Commission on application of either party. The discussion was confined to legal and constitutional questions, and brought forth frequent interruptions by lawyers on both sides of the chamber.

SENATOR TELLER'S POINT.

Mr. Hayden concluded at 3:05 o'clock and Senator Teller said he thought the various amendments offered had been discussed long enough to show what the judicial review should be. He desired to hear from some one just what the differences are between those amendments.

The rate bill was then laid aside, and the Indian Appropriation Bill was taken up.

At 4:40 p.m. the Senate went into executive session, without concluding the reading of the committee amendments to the Indian bill. At 6 o'clock the Senate adjourned.

HOUSE PROCEEDINGS.

WASHINGTON, April 16.—Mr. Cullen of Kansas presented a concurrent resolution to correct the bill for the final settlement of the affairs of the Five Civilized Tribes. One amendment proposed, however, is to add a new article providing for a sale of all buildings now or heretofore used for governmental, school and tribal purposes.

Mr. DeArmond of Missouri opposed the resolution on the ground that legislation by resolution is dangerous. The rules were suspended and the resolution adopted.

NATIONAL BANK LOANS.

Mr. Shattell of Missouri called up the bill amending the revised statutes relating to national banks. National banks have heretofore been limited in making loans so that they could not loan to exceed 10 per cent. of their capital to any one individual.

Mr. Shattell called up the bill which Mr. Shattell called up adds the surplus to the capital stock for loan purposes, provided no loan shall exceed 10 per cent. of the capital stock.

INCREASES LENDING VOLUME.

Mr. Pujo of Louisiana said that "should this legislation be enacted, it would add to the legal lending volume about \$4,000,000,000, as the surplus is now some \$442,000,000. The bill was passed on a rising vote of 193 to 7.

SACRAMENTO DIVERSION.

The House passed a bill for the diversion of the waters of the Sacramento River in California, for irrigation purposes.

DENATURALIZED ALCOHOL.

The Denaturalized Alcohol Bill passed, by 223 to 7.

COLUMBIA RIVER IMPROVEMENT.

The House passed a bill appropriating \$100,000 for the improvement of the mouth of the Columbia River in Oregon and Washington.

COASTWISE LAWS.

The House passed a bill today extending the time for the collection of the duties of the United States Coast Guard to the Philippines until April 1, 1937.

WOMAN AND CHILD LABOR.

The bill authorizing the Secretary of Commerce and Labor to investigate and report upon the industrial, moral and educational conditions of female and child workers in the United States was made a privileged order in the House.

TRADE-MARKS.

The bill amending existing law relating to the registration of trademarks was passed. The bill creates classes of merchandise for the purpose of trade-mark registration.

GUARDS PRECIOUS METALS.

Mr. Ryan of New York called up the bill forbidding the importation and carriage in interstate commerce of falsely or of spuriously stamped articles of merchandise made of gold or silver or their alloy. Broadly stated, it requires persons manufacturing articles out of the precious metals to stamp these articles for what they really are. The bill was passed, 133 to 25.

ATHLETES REACH NAPLES.

Mitchell and Hillman Still Suffering from Injuries, and Former May Not Compete.

(BY THE ASSOCIATED PRESS.—P.M.)

NAPLES, April 16.—The North German Lloyd steamship Barbarossa from New York, April 3, and Gibraltar April 13, having on board the American Athletes who are entered to take part in the Olympic games, which begin at Athens April 22, arrived here today.

The men were injured while crossing the Atlantic with the exception of James S. Mitchell of the New York Athletic Club, the weight putter and hammer thrower, and Harry L. Hillman, Jr., of the New York Athletic Club, runner, have recovered.

Mitchell's arm is still in a sling and may interfere with his competing and Hillman's leg is still bandaged. The latter is improving and expects to compete at Athens.

The Americans landed soon after the Barbarossa's arrival. Some of them visited the scenes of destruction in the vicinity of Mt. Vesuvius, but the majority of the athletes accompanied by their trainers, practiced running, jumping, etc., in order to test their condition after the voyage. All were in good spirits and insisted that the accidents would not appreciably affect their strength.

Hillman's injured knee is slightly discolored and swollen.

Mitchell suffered the most from the sea voyage, remaining in bed three days after his dislocated left shoulder had been set by the ship's surgeon.

This is a story written by a strong man, of a strong man, for strong and grown up men to read. It is a tale such as is told by a man perhaps once in a lifetime—a tale of impetuous emotion, of brute strength and courage, of swift and passionate love and hate—a tale which tells itself without fine words—vigorous, forceful, mighty. There is no room for the violet conventions of society in that robust land where

"Never a law of God or Man runs north of Fifty-three."

The only law is the law of possession, of individual conscience, and of hunger—the hunger for gold dug out of the hills, and the blinding hunger of man for woman and for woman's love. It is a story of today, but it goes back to the root of things, and is true of all men and all real women since time began.

KNIFE THRUST MAY END LIFE.

LODGING-HOUSE KEEPER SAYS
RANCHER STABBED HIM.

F. B. Perkins is taken to the Receiving Hospital, Probably Fatally Wounded—Perry Horner, Pointed Out as His Assailant, Says an Attempt was Made to Rob Him.

F. B. Perkins, proprietor of the New Orleans lodging house at No. 712 1-2 East First street, was fatally stabbed by a man giving the name of Perry Horner in Perkins' place at 2 o'clock this morning.

Horner is a ranch hand and came to Los Angeles a few days ago. He appeared at the lodging house tonight and is said to have demanded a bed, and upon his refusal to pay for the same was led to the street below by Perkins.

While standing in the stairway Perkins declares his assailant suddenly drew a knife from beneath his coat and sank it deep into the hotel man's abdomen. Perkins was taken to the Receiving Hospital and probably will die.

Horner declared while being led away to a cell in the City Jail that he was being robbed and used the knife to protect himself.

BRUTAL ATTACK BY POLICEMAN.

OFFICER ROY ALLEN CLUBS MAN
FOR "INTERFERING."

George Hare Objects When Patrolman Botteroff Slaps Prisoner and is Beaten Up So Badly That Wound in Scalp Requires Six Stitches to Draw Edges Together.

An excited crowd of over two hundred persons gathered at Fifth and Main streets last night when George Hare, a bystander, interfered in the arrest of J. O'Connor, who was being taken into custody on a charge of drunkenness.

In the mix-up, Hare was brutally beaten on the head with a club in the hands of Patrolman Roy Allen. Hare was so severely injured that it was necessary for him to go to the Receiving Hospital, where a police surgeon took six stitches in his scalp.

Hare was subsequently released from the hospital, and disappeared from the station with Allen, who had discovered in Hare an old-time friend.

The crowd sided with the two unfortunate who fell under the brutal treatment of the patrolman, and the excitement did not subside until several minutes after the patrol wagon arrived on the scene and removed O'Connor to the City Jail.

O'Connor was standing at Fifth and Main streets in a badly intoxicated condition when he was approached by Patrolman Botteroff, who grasped him by the shoulder and started in the direction of a patrol box. O'Connor resisted arrest. When he heaped epithets on the officer, the latter retaliated by slapping his prisoner in the mouth.

Hare had been a witness to the arrest, and immediately set up a cry of "shame," rushing toward officer and prisoner. Patrolmen Roy Allen and Humphrey, who were passing on a street car, noticed the crowd, which had quickly congregated. Alighting, they dashed into the midst of the assembly, intending to assist Botteroff, who was being worsted in his attempt to retain his hold on O'Connor.

Allen selected Hare as the principal source of interference and, drawing his club, beat the man almost into insensibility. Hare's scalp was lacerated in numerous places, and with blood flowing from a dozen cuts, he sank helplessly to the pavement.

The action of the policeman so incensed the crowd that a riot was narrowly averted. Additional police assistance had arrived in the meantime, and the injured man and prisoner were removed from the scene of the disturbance.

Patrolman Allen, who went immediately to the Police Station, discovered that the man he had rendered temporarily helpless was an old friend, and expressed much regret at his action.

Hare stated that he was angered at the officer's action in abusing his prisoner, and could not restrain himself from interfering.

INTIMIDATION SUSPECTED.

Complaint Against Negro Davis Reopened; Woman Said to Have Consented Quoted Doing.

On suspicion that a woman witness has been intimidated into silence by lawyers, the notorious negro, John Davis, has been rearrested and will be examined all over again for alleged criminal assault.

Sensational statements were made yesterday to the District Attorney's office regarding the testimony of the white woman with whom Davis had been living.

He is accused of having made a terrible assault upon his step-daughter, claimed to be deficient in intellect. The child's mother was the main witness in the case.

At the time of the examination, however, the woman completely turned tail and refused to give any testimony, claiming not to know anything about it.

Attorney Walter Bacon called with Sheridan Carlsle at the office of the District Attorney yesterday with a charge that the woman had been intimidated.

He stated that she had come to him and made a clean breast of the whole case. She said that her lawyer, J. H. Smith, the "cobbler," whose business associates were defending Davis, had scared her out of testimony. She told Bacon that Smith warned her that she would lose all her property and the negro might kill her if she testified against him.

Although there is no positive assurance that any such thing took place, Deputy Dist. Atty. McCarthy released the complaint against Davis, and the matter will be closely inquired into at the coming preliminary examination.

Smith is not an admitted attorney. He solicits law business, gives advice and hires other lawyers to appear for him in court. He has been in trouble thereby numerous times.

Davis, the negro, is already in jail on another charge. When the woman witness failed to testify, they were both arrested on a charge of adultery, a riot being narrowly averted, his negro friends rallying to protect him from the officers.

BUFFALO OFFICE HOLDERS IN NET.

POSTMASTER AND COLLECTOR OF
PORT ARE INDICTED.

Five County Officials Also Indicted for Grafting in Connection With Purchase of Cemetery for Site for Armory—City Officials Enter Plea of not Guilty.

[BY DIRECT WIRE TO THE TIMES.]
BUFFALO, April 15.—[Exclusive Dispatch.] Fred Greiner, postmaster of Buffalo; Fred O. Murray, recently appointed collector of this port and former Treasurer of Erie county; Robert S. Woodburn, former clerk to the Board of Supervisors; Byron D. Gibson and William B. Jackson, Supervisors, and John W. Neff, former County Auditor were indicted today.

Several other secret indictments were handed in by the grand jury, which has been alluding to grafting in connection with the purchase by the county of the North-street Cemetery as a site for the Sixty-fifth Regiment armory.

Murray and Greiner appeared before Justice Kenefick in the Supreme Court and entered the plea of not guilty to all the charges. Bail was fixed at \$10,000 each, which was furnished.

CREW KILLS A LIEUTENANT.

MADRID, April 15.—The Portuguese papers print a story to the effect that while the Portuguese battleship Vasco de Gama was opposite Lisbon April 13, there were unusual cries and signals for help on board. A tug approached the vessel, but was fired upon, when it retired. The papers assert that a lieutenant was killed by the crew in revenge for the death of a sailor who was killed by the lieutenant as he was trying to fire a cannon. The papers also print a statement that the examination of the 43 members of the crew of the cruiser Don Carlos, who mutinied April 12, is being held and that seven of them already have been sentenced to close confinement.

CRIME BRIEFS.

He Needed the Money.
SAN FRANCISCO, April 15.—After holding a revolver to the stomach of Conductor Manuel Vallejo of in-bound car No. 10 on the south city line about 11:30 o'clock last night, and robbing the helpless man of \$15.50, a lone highwayman added a touch of drama to the episode as he alighted from the car with his booty by saying to the conductor: "I'm sorry, pal, but I need the money. Just tell the boys that you fell in with 'Red Shirt' Gordon."

Suicide Dies in Hospital.
STOCKTON, April 15.—Announcing that he was going up to his room and kill himself, Tony Martin, deserted a week ago by a woman of the town who bore his name, repaired to his lodgings this morning, put a pistol to his head and pulled the trigger. The noise of the shot brought some one to his room, and Martin was taken to the Emergency Hospital, where he died three hours later on the operating table. He was about 40 years of age, and is said to have relatives in San Francisco.

Escaped Jail, Stole Horse.
VALLEJO, April 15.—John O'Hara, of South Vallejo, serving a sentence of five months for larceny in the Fairfield Jail, escaped Saturday evening. The same night a horse worth \$150 and a buggy were stolen from Wilson's livery stable at Suisun. Constable Downing of Suisun suspected O'Hara, and telephoned to Chief Stanford of Vallejo to be on the lookout. The chief found the man at a cottage on the Benicia road yesterday morning. The horse and rig were also found there. O'Hara was taken back to Suisun for trial.

THANKSGIVING PSALM

A Rhythmic and Grateful Chant.
A teacher in a Terre Haute public school joins in the chorus:

"Teaching is a business which requires a great deal of brain and nerve force. Unless this force is renewed as fast as expended the teacher is exhausted before the close of the year. Many resort to stimulating tonics for relief."

"For 3 years I struggled against this almost complete exhaustion, getting what relief I could from doctor's tonics. Then in the spring of 1903, I had an attack of la grippe and malaria which left me too weak to continue my work. Medicine failed to give me any relief, a change of climate failed. I thought I should never be able to go back to school again."

"I ate enough food, (the ordinary meals, white bread and vegetables) but was hungry after meals."

"I happened at this time to read an article giving the experience of another teacher who had been helped by Grape-Nuts food. I decided to try Grape-Nuts and cream as an experiment. It was a delightful experience, and continued after a year and a half of constant use."

"First, I noticed that I was not hungry after meals."

"In a few days that tired feeling left me, and I felt fresh and bright, instead of dull and sleepy."

"In three months, more than my usual strength returned, and I had gained 15 pounds in weight."

"I finished the year's work without any kind of tonics—was not absent from duty even half a day."

"Am still in the best of health, with all that know me wondering at the improvement."

"I tell them all, 'Try Grape-Nuts!'" Name given by Postum Co., Battle Creek, Mich.

PASSENGER MEN HERE IN FORCE.

Forty-three Western Roads in Convention.

Transcontinental Association's Sessions Open Today at the Alexandria, and Many Subjects Bearing on Passenger and Tourist Business to Coast Coming Up.

The passenger representatives of forty-three railroads west of Chicago will gather in this city this morning at 11 o'clock at the Alexandria, in the opening session of the regular quarterly meeting of the Transcontinental Passenger Association.

More than sixty subjects, all bearing more or less directly on the passenger and tourist business to the Coast States, will come regularly before the sessions of the association, which will continue for four days.

Among the visiting representatives are such men as W. J. Black, Chicago, passenger traffic manager of the Santa Fe; A. F. Merrill, Chicago, assistant passenger traffic manager of the Milwaukee; W. S. Keenan, Galveston, general passenger agent of the G. C. and S. F.; W. A. Laiter, St. Louis, assistant general passenger agent of the Burlington; George T. Nicholson, third vice-president of the Santa Fe; Maj. S. K. Hooper, general passenger agent of the Rio Grande.

"Practically the entire business of our meetings has to do with booming the western passenger business of the roads represented," said James Charlton of Chicago, chairman of the association, last night. "And the greater part of that business is far in Pacific Coast traffic."

"Our discussions cover ways and means for the filling up of your Western States with tourists, pleasure seekers and colonists, and the making of special rates by the interested lines covering conventions and other special occasions, and the special rates of the various seasons."

"Although we are kept pretty busy while in session, the matters are usually routine, and while we have nothing to do in the making of rates, we receive and announce the proposed action of the various lines in that connection."

"It is extremely gratifying to all of us to watch the growth of passenger business to the Coast points, as we are, and always have been, working hard to bring about that end, and the results quite justify the most sanguine expectations."

RANDOLPH HERE.

Epes Randolph, representing the Harriman interests in the Los Angeles-Pacific Railway, arrived yesterday from his headquarters at Tucson, Ariz., and spent the greater part of the afternoon closeted with President H. E. Huntington of the Pacific Electric system.

R. H. Ingram, general superintendent of the Southern Pacific, is on a trip of inspection over the lines south.

A Short Talk About Short Prices to the Ladies OF THIS VICINITY

The fame of Machin's special sales of high grade shirtwaists, neckwear and bolos, etc., has become famous all over Southern California. There is hardly a woman that has lived here for a year, that does not know of these sales. Season after season come, these wonderful sales occur. Notwithstanding the prices are often cut way below the actual cost, the quality is always the same, the finish just as careful, and such a thing as misrepresentation in quoting prices is never permitted.

Today marks the beginning of one of these phenomenal price-cutting events that will not be forgotten by those who are fortunate enough to attend the sale.

Owes Life to Duffy's Pure Malt Whiskey

At 71 Years of Age, Vigorous and Strong, Mr. Philip Zimmer, of Keuka, N. Y., Writes He Owes his Life to Duffy's Pure Malt Whiskey.

Mr. Zimmer was given up to die by family and friends, and his days numbered, when he began to use Duffy's Malt Whiskey. He deems it his duty to publish his remarkable cure to the world. He says:

"I am in my 71st year and am hale and hearty. Some ten years ago, when chronic lung trouble threatened to overcome me, my family felt that my days were numbered. I began to use Duffy's Pure Malt Whiskey according to directions and went through a course of training. In one year I was completely cured."

"I consider it the duty of a sufferer who has been cured by Duffy's Pure Malt Whiskey to publish the fact to the world."—Philip Zimmer, Keuka, N. Y., Sept. 19, 1905.

Duffy's Pure Malt Whiskey is an absolutely pure, gentle and invigorating stimulant and tonic, builds up the nerve tissues, tones up the heart, gives power to the brain, strength and elasticity to the muscles and richness to the blood. It brings into action all the vital forces; it makes digestion perfect, and enables you to get from the food you eat all the nourishment it contains. It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system; is a promoter of good health and longevity; makes the old young and keeps the young strong. Sold by all druggists and grocers, or direct, in sealed bottles only, never in bulk. Price \$1.00. See that the strap over the cork is unbroken and look for the "Old Chemist" trade-mark on the label. Refuse all substitutes, as they are positively injurious to the health. Booklet and medical advice free. Duffy Malt Whiskey Co., Rochester, N. Y.

HONOR KILLED OF THE KEARSARGE.

Gunner's Mate Fisher, Who Was Among the Injured, Dies, Leaving Relatives in Los Angeles. His Wife Being Formerly Miss Inez Davis, No. 1025 Temple Street.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, April 14.—The following cablegram was received at the Navy Department this afternoon from Rear-Admiral Brownson, commanding the armored cruiser squadron, date Calmanera, Guantanamo Bay:

"Impressive ceremonies were held this afternoon over the bodies of Lieut. Hudgins and the following enlisted men of the Kearsarge: Jules A. Kooser, Anton C. Thorsen, Theodore Naegley, Ellis N. Athry, Peter Norberg. Hudgins' and Graeme's remains prepared and are now aboard the Maryland. Enlisted men were interred in the naval cemetery. No charge in the condition of the injured men. The Kearsarge will return to the range and finish the target practice when the condition of the men permits. The body of C. Fisher, the gunner's mate who was among those injured, died today.

INVESTIGATION BEGUN.
[BY THE ASSOCIATED PRESS-P.M.]
GUANTANAMO (Cuba) April 18.—
board of inquiry today began an in-
vestigation of the cause of the explo-
sion on board the battleship Kears-
arge, last Friday, which resulted in
the death of two officers and five men.

Los Angeles Girl a Widow.
The wife of Gunner's Mate Fisher was a Los Angeles girl. She was formerly Miss Ines Davis, a daughter of Mrs. Henrietta Davis of No. 1024 Temple street. They were married last summer at the Episcopal church on Custer street. Mrs. George P. Taylor of No. 833 South Broadway and Mrs. Frank J. Burns of Melrose Junction, Hollywood, are aunts of Mrs. Fisher. Mr. and Mrs. Fisher had been planning to visit Los Angeles within a month or so. He had hoped to be transferred to some station near San Francisco so that his wife might be within easy reach of her old home.

day for trial under her new sails. The sails were specially ordered for the Lurline's race from San Francisco to Honolulu. They include a complete outfit, including all different top sails, mainboom staysails, spinnakers and

The Lurline's appearance has been much improved by the lengthening of her counter, she having received an additional length of about eight or nine feet. She will soon depart for

San Diego, to there go on the way to have her underbody prepared for the big race. The race to Honolulu will be started from San Francisco May 13, and in addition to the six vessels already entered, a Canadian yacht, called the *Mermaid*, is expected to start.

pected to enter the race. Commodore Sinclair says the course is about 220 miles long, and with calms and high weather, he expects the contest to last about a fortnight before the first boat gets the gun off Honolulu.

LAST IS FINAL PROPOSITION.

No Further Overtures From Coal Operators.

Will Today Give Mitchell Reason for Stand.

Water Filling Mines of Indiana and Illinois.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, April 1.—The formal details of the anthracite operators to the last proposition of Mitchell's committee of seven will be considered tomorrow at a meeting of the presidents of the coal-carrying companies, at which it is expected President Aker will preside. In the detailed reply, it was said last evening, the operators will say that their last proposition to Mitchell was final and will give their reasons at length for making the proposition. It will be designed to show that the only questions which can properly come before the Anthracite Strike Commission are the questions of wages and the adjustment of complaints through the conciliation board or otherwise.

(BY THE ASSOCIATED PRESS—P.M.) KANSAS CITY, April 1.—The Southwestern Coal Operators Association, through its officials and president, has, it is said, begun informal negotiations with John Mitchell, president of the United Mine Workers of America, that may result in some sort of arbitration agreement covering the field, which includes Missouri, Kansas, Arkansas, Texas and the Territories. It has been suggested to Mr. Mitchell that he join with C. H. Perry, president of the Southwestern operators, in appealing to President Roosevelt to arbitrate the differences between operators and miners. This association also recently endorsed such an appeal and instructed President Perry to personally lay it before President Roosevelt.

(BY THE ASSOCIATED PRESS—A.M.) COLUMBUS (O.) April 1.—According to reports received from Illinois and Indiana, this morning, mines in those states are filling with water because the pumpmen and engineers have not gone to work. It is said this question will be one of the most important to come up in the Indianapolis meeting. The operators are going before President Mitchell and demand to know if it is by his authority that the pumpmen and engineers are out of the mines question, when they are union mines and the union agreed to keep the pumpmen at work.

(BY THE ASSOCIATED PRESS—A.M.) INDIANAPOLIS, April 1.—John Mitchell, president of the United Mine Workers, and Secretary-Treasurer Wilson, were at the miners' headquarters here today and both seemed satisfied with the outlook. "Up to this time, none of the men have drawn on the national treasury for support, and I have heard of no drawing on the district or sub-district funds," said Secretary-Treasurer Wilson. "They are maintaining themselves on their own resources."

WOMEN'S CLUBS.

Karl at the Ebbl. Has Tom Karl retired from the operatic stage to take the platform at women's clubs. The thought forces itself upon one, because Mr. Karl has appeared twice within a month before leading clubs. Yesterday he sang at the musical machine given at the Ebbl. He can crowd more sentiment into the tender lilt of a love song than many a young singer and his performance yesterday, a cradle lullaby, was a gem. The programme was in charge of Miss Helene Parsons and was presented by Miss Estelle Hearty. Miss Ina Goodwin and Tom Karl. The theme was nature, and the music was selected with the idea of making it as spring-like as possible. The keynote was struck in the first number, when Miss Mabel Tanner recited "The Spring Song," to the accompaniment of Mendelssohn's "Spring Song," played by Miss Parsons, the music rippling through the poetic story of the flowers. Miss Hearty sang three numbers and when a fourth was insisted upon by a persistent encore she dropped down at the piano, and, running her fingers over the keys in soft accompaniment, sang a sweet little love song. Miss Goodwin's piano selections were artistic and finished to a degree. After the music many lingered to peruse the prettily-laid tables in the tea-room adjoining the foyer. The ladies of the Shakespeare section of the club are planning an Egyptian day for Thursday, April 25. An elaborate luncheon will be served at noon and the afternoon will be given up to short stories, music and tableaux by ladies in Egyptian costumes. The affair is for the benefit of the Shakespeare room, its furnishings and decorations. Club Notes. Miss Jane Brownlee of Toledo, O., will give a talk on "Education" at the Woman's Club House next Wednesday afternoon at 2:30 o'clock under the auspices of the Los Angeles District Federation of Clubs. The Galpin Shakespeare Club will give a reception next Wednesday afternoon from 3 to 5 o'clock at Cumstock Hall in honor of Mrs. Constance Crawley, who appeared here in the principal role in "Everyman" a couple of years ago and who will next week impersonate in turn some of the principal characters in three of Shakespeare's masterpieces. Miss Parsons will give her last musical lecture before the Ebbl Club next Wednesday. Olive-street Child-Study. The Olive-street Child-study Circle will meet on Wednesday afternoon at 3 o'clock to listen to an address by Prof. Leslie of the Polytechnic High School. Miss Dustin on Vesuvius. The Current Events Club at the Y. W. C. A. rooms last evening enjoyed a talk by Miss Rosamond Dustin, who not long since spent several months in the vicinity of Mount Vesuvius, whose recent eruptions have attracted world-wide attention. Miss Dustin spent two weeks on the island of Capri, from which vantage point the eruption which caused the destruction of Pompeii was observed and it was to this island that many of the people fled. She illustrated her talk with a large collection of pictures of Naples, Castellamare, Sorrento, Amalfi and other points round about Vesuvius. Her familiarity with the villages already destroyed by the eruptions of the past two weeks lent a vividness

SPRING CATARRH

Druggists Sell Hyomei Under Guarantee of Cure.

The changeable weather of Spring is directly responsible for the prevalence of catarrhal troubles in Los Angeles at the present time.

Unlike the ordinary remedies that have been used in catarrhal troubles, there is no stomach dosing with Hyomei. It is breathed through a neat pocket inhaler that comes with every outfit, and its balsamic, antiseptic, healing penetrates to the most remote cells of the nose, throat and lungs, killing all catarrhal germs, healing the irritated mucous membrane, and effecting a complete and permanent cure.

If there is a single catarrhal germ in the system, Hyomei will search it out and absolutely destroy it, completely eradicating the trouble.

The complete outfit costs only \$1.00, consisting of an inhaler, medicine dropper, and bottles of Hyomei, while extra bottles of Hyomei can be obtained for 50 cents.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for a free sample bottle and consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

and interest to the terrible calamity which has befallen Southern Italy in this most recent disturbance of the great monster who has awakened again after an intermission sleep of more than thirty years.

One of the most absorbing events of the past fortnight to the city was the recent Capitola conference and reports were given from various delegates telling of the delightful sessions of a terminating and profitable features of the conference.

VETERINARIANS GATHER. Southern California Association Meets, and Surgeons Confer With State Chief on Texas Fever.

Veterinary surgeons of Southern California held two interesting gatherings in Los Angeles yesterday. One was the quarterly meeting of the Southern California Veterinary Association and the other a conference of the various county veterinary surgeons with the State Veterinary over the best methods of handling Texas fever cases.

County veterinary surgeons for the counties of San Diego, Orange, Santa Barbara, Los Angeles and Ventura held a conference in the forenoon, with the State Veterinary Surgeon, Dr. Charles Keene of Sacramento, and Dr. W. E. Morrison of Los Angeles, who is his assistant.

Methods were discussed for the more harmonious carrying out of the quarantine laws in the case of outbreaks of Texas fever, with the purpose of exterminating this dread disease. As Southern California is a territory under the application of the United States quarantine laws, this conference was of special interest.

The State Veterinarian declared that all village of Texas fever had been wiped out of the counties of Tulare, Kern, Fresno and Kings, and a large portion of San Luis Obispo county. He instructed the county officers to make maps of the counties, locating the ranches and designating the foot of the fever, so that careful records may be kept, and special steps may be taken to eradicate the disease, which has proved so disastrous to stock-raisers.

Yesterday afternoon the Southern California Veterinary Association held four clinics at the hospital of Dr. Pennington, where delicate operations were skillfully performed. Twenty-four members were in attendance.

ORIENTAL ART AT CLAREMONT. Frank L. Loftus, a recognized authority on Oriental art, will talk on the subject at Pomona College, Claremont, Thursday, April 4. Loftus has an interesting fund of information, as well as many interesting stories as a result of his extensive travels in the Far East. He is deeply interested in all things oriental, and has written many papers on the subject of which his lecture is a good buyer for Barker's.

ETCHINGS WERE KING EDWARD'S. LONDON, April 1.—The Morning Leader says it learns on good authority that the collection of Whistler etchings recently purchased by an American dealer and which were sold at the sale of King Edward's and which contained some of the best examples of Whistler's work.

DO NOT NEGLECT THAT Nasty Hacking Cough. Anything that simply stops your cough leaves the deadly germs still there—a safe and a sure cure for the Lungs is needed. Acker's English Remedy for the Lungs is that cure. It differs from every other medicine by acting directly on the Lungs, soothing and healing them at one and the same time.

I had been troubled for years with a very bad cough. Acker's English Remedy for the Lungs gave me instant relief, and perfect cure. I know it to be a very fine Remedy. WILLIAM JAMES, 4917 Yew St., Pittsburgh, Pa.

Acker's English Remedy is a permanent Remedy, not a deceptive preparation which gives but temporary relief, only to be followed by a reaction, leaving the sufferer in a worse condition than before. Acker's English Remedy for the Lungs removes the cause by cleaning the Lungs in a soothing, mild and gentle yet effective manner—it is perfectly harmless—children can safely take it. Sold by druggists on a guarantee to cure or money refunded.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Jewish Dramatic Company.

The Jewish Dramatic Company, from San Francisco, will commence a short engagement at the Mason Opera-house this evening. The first play is "The Golden Country," and the star of the performance will be Jacob Silbert, Parish Entertainment.

The ladies of St. Mary's parish will give a musical and literary entertainment tomorrow evening in Korbel Hall, at State and East First streets. As this is the first social event in the parish after Easter, it is of much interest to the Catholics of Boyle Heights.

Thomas Ready for Business.

William Thomas, who was found guilty of vagrancy some time ago, and sentenced to serve ninety days in the City Jail, but who appealed, gave himself up yesterday at the Police Station and said he was anxious to begin his life anew. Thomas lost his case in the higher court and went to jail without waiting to be arrested.

WATERY TRIP OF AUTO PARTY.

WET FATE OF FARMERS WHO CAME TO RESCUE.

F. C. Fenner Makes Journey from Red Rock Canyon and Finds Quick-sand in the Soledad-Midnight Chase After Mules That Dumped Farmers Into Creek.

Automobiling has its funny side, but the fun isn't always appreciated until afterward. So thinks F. C. Fenner. After an all-night drive he arrived in Los Angeles yesterday forenoon, with the mud and sand of Soledad Canyon still in his clothes and machine. He had a rather strenuous time.

Mr. Fenner is the general manager of the Lowell and California Mining Company, and besides that he has other interests in the country above Mojave. He has his headquarters at Palmdale, where he maintains a garage for his two White machines.

His trip down from there was the first that any automobile party has made since the big rains. He says it will be the last for some time.

Mr. Fenner and his companions started from Red Rock Canyon Saturday day. Down to Palmdale the roads are good, with the exception of a stretch from Rosamund to Lancaster, but that isn't very bad. The party stayed over night at Palmdale and started for Los Angeles Sunday. The roads are fine most of the way, and they spun along till they hit Russ. Then the fun began.

The road thereafter for nearly ten miles runs practically in the creek bed, and in addition to the water running now, the floods have brought down large quantities of sand. It's practically a quicksand in many places. They tried to "rush" one of the fords and got stuck in the sand. They couldn't go ahead by any means, but after a couple of hours' work they backed the machine up on the bank.

Then Mr. Fenner prospected and thought he found a way along the side, but it was through brush. So he fell to with a pocket knife and macheted his way for about two hours. Then he rushed to the attack with the machine. And got stuck worse than ever.

With nothing in their stomachs since an early breakfast, the party paddled out of the three feet of water they had been prospecting for. They put on their clothes and walked six miles to Lang. There they got bread and cheese and a team of four mules.

When they got back the machine had sunk to the pan in the sand. So they got out the jacks, and they disappeared in the sand. Then they got faggots, and after building a platform of them jacked the machine out. The mules were hitched to a wagon, and they hitched the wagon to the machine. The two farmers who had come down with the team got into the wagon and started operations.

With a long pull, and a strong pull, and a pull altogether, and much huffing, they started. Then the wagon came in two places, and the nation's farmers were dragged through three feet of icy water on their faces. It took an hour to catch the mules.

The next try they got the machine out, and down the rest of the ten miles the automobile headed a very wet and wrathful parade. From Lang, which the party reached after midnight, Mr. Fenner drove the car without leaving the seat until they arrived in Los Angeles. The rest of the road is excellent, and he punished the time schedule to make up for the souping.

Monster Dredger Ready for
Action at Naples.

Tomorrow's Dawn Will Start
Scooping of Bay.

Evolution of Wonder City
Involves Vast Sum.

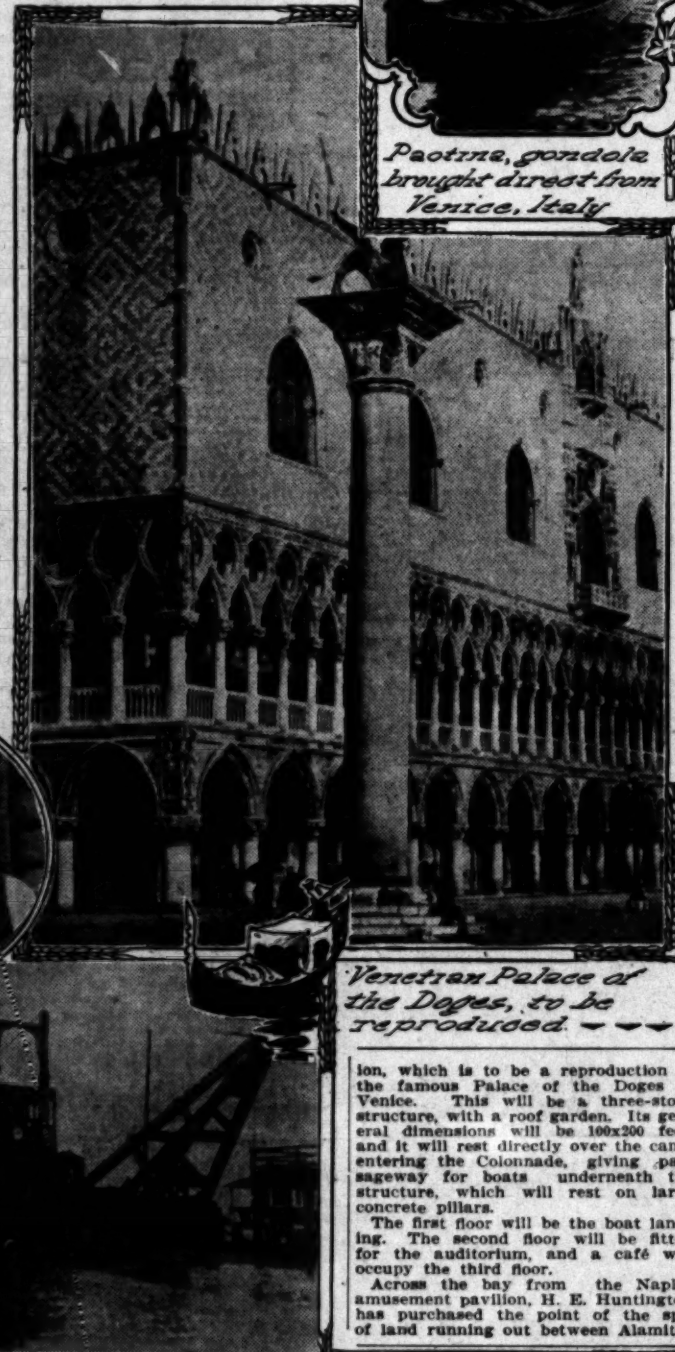

The mammoth dredger Seattle, largest on the Pacific Coast, will begin tomorrow morning to scoop out of Alamos Bay sand and gravel, silt and soil, to deepen the bay to a fine stretch of water, navigable by boats of good size. The material taken from the bay bottom will be used to build up the lands that are to be covered by probably the most picturesque city in the United States—a city of tile-roofed houses, and the general architecture of which will be strictly in accord with the beautiful designs to be found in the Venice and Naples of the Mediterranean.

Naples, the city which is to arise on the water streets of Alamos Bay, is the largest construction proposition of its kind now before the people of the Southwest.

Construction contracts representing an expenditure of \$600,000, already have been awarded. Much more expense will be entailed in the carrying out of the Naples idea. It is said the whole proposition will represent an outlay of at least a million and a quarter of dollars.

Standing forth as a prominent feature in the skyline as one gets within view of Naples is the huge bulk of the steam dredger Seattle, just brought down from the city of Seattle, and anchored

Brossart, A. M. Parsons, A. C. Parsons, C. C. Dodge, J. Bergman, Dr. J. Brown and N. L. Blehl, of Los Angeles; J. F. Rabieth of Redlands; J. H. Morehouse of Pasadena; Mrs. M. A. DeMund, wife of the president of the Phoenix Flouring Mills, Phoenix, Ariz.; Calvin Thornton of Pasadena; Mrs. Nettie Whittemore of Pasadena, and others. The Venice Construction Company also has contracts awarded for the erection of twenty handsome residences on the bay

lon, which is to be a reproduction of the famous Palace of the Doges at Venice. This will be a three-story structure, with a roof garden. Its general dimensions will be 100x300 feet, and it will rest directly over the canal entering the Colonnade, giving passage-way for boats underneath the structure, which will rest on large concrete pillars.

The first floor will be the boat landing. The second floor will be fitted for the auditorium, and a café will occupy the third floor.

Across the bay from the Naples amusement pavilion, H. E. Huntington has purchased the point of the spit of land running out between Alamos

Rising of the new Naples on Alamos Bay, where a million and a quarter is being expended on improvements. The Venetian Palace of the Doges is to be reproduced at a cost of a hundred and fifty thousand dollars. Great dredging operations will be started tomorrow morning.

In Alamos Bay, after a series of trying experiences. The dredger was towed down these 1500 miles by the powerful tug Dauntless. It was carefully prepared for the long journey by the attaching to its sides of large floats to equalize its draught.

RECORD-BREAKING TRIP.
The trip was a record-breaker for this sort of transportation. The entire journey showed an average of six and one-half miles an hour. This great dredger is 175 feet in length over all, and has a 40-foot beam. It draws only seven feet of water.

The apparatus is fitted with a complete machine shop, blacksmithing department, etc. It has a well-appointed galley, where food is prepared for the entire working crew; there are office room, a bunkhouse, etc. A force of thirty-five men is required to operate the dredger when it is working full force.

On the Naples work there will be continuous operation. Three eight-hour shifts will keep the huge thing of wood and steel spouting the earth from the bay's bottom out onto the lands, which have been locked by bulkheads to retain the accretion.

Within thirty days, it is expected, the first section of Naples—land built up by the transfer of part of the ocean bed—will be completed, and ready for the beginning of buildings. These are to start just as quickly as the dredging work will allow.

As if by magic, there will rise on the canal streets, beautiful homes of Venetian construction, tile-roofed and wide-porch. Fully seventy-five such residences will arise as rapidly as workmen can accomplish the task. On the main canal fifteen buildings will be in course of construction within sixty days. They will stand on "made land," at least eight feet higher than these locations lie today.

As an indication of the activities which are planned for Naples during the ensuing season, the Naples company reports having sold to date \$750,000 worth of property there. Building restrictions on the lowest-priced lots are \$1500, and these restrictions amount to several thousand dollars, according to location.

Among those who have purchased

frontage. The first one of these is to cost \$3000.

Actual construction on Naples began six months ago. Although a large force of men has been laboring all these months, the work has been of such a character that it makes but little showing at a casual glance. It is, however, the very foundation of the place, which has been in progress. From now onward the work in hand will make a much greater showing.

MILES OF BULKHEADS.
Within the present week the last of the extensive pile-driving contracts for the bulkheads will have been completed. The enterprise provides for almost six miles of heavy bulkheads. These have as their base piles 4x12 inches, set 26 feet into the soil. Every eight feet they are reinforced by inch steel. A quarter iron rods, running back to a second line of piles eight feet from the bulkhead. A facing of 2-inch plank rests against this piling, and each plank is securely bolted into place. Over the entire front surface of this wooden foundation will be a cement wall six inches in thickness, reinforced with steel rods. This concrete wall will reach to the bottom of the canal, making a solid concrete bulkhead fourteen feet high.

Branching off from the bay proper will be the great semi-circular canal to be known as the "Rivo Alto." It will be 80 feet wide and one mile in length. Along this canal frontage, on both sides, will lie 15-foot cement walks, and every 200 feet will descend to the water's edge broad flights of concrete steps. Along the entire bulkhead of the Rivo Alto will be placed a series of electric lights, similar to those now in use on Broadway in Los Angeles.

The business section of Naples is to be known as "The Colonnade." Through the center of this street, which opens directly off the bay, and lies between the two ends of the semi-circular main canal, will be an eighty-foot water-way. Each side of the Colonnade is to be lined with two-story Venetian structures, with a fifteen-foot arcade on the ground floor, fronting on the canal, and the second stories coming out flush with the edges of the water-course.

At the entrance to the Colonnade will be erected the amusement pavil-

Bay and the ocean. The tract is 500x 400 feet. It lies in about equal proportions in Los Angeles county and Orange county. On this point there is to be erected a bath-house to cost at least \$20,000. On one side the bath will find still water.

It is estimated that there are 1,000,000 cubic yards of earth to be removed from the bay and the beds for the canal. The bay frontage of Naples will be dotted with picturesque homes. Dredgings from the bay, so that buildings there may begin as soon as possible. Within sixty days work on the amusement pavilion will be in progress. By the end of the summer season, it is expected the site of Naples will be dotted with picturesque homes.

The entire Alamos Bay frontage of Naples, and all of its canal system, are to be dredged so that there will be six feet of water at low tide. The canals are to be spanned by five concrete bridges. Four of these will be thirty feet each in width, and the central bridge which is to provide passage-way for the electric line branching off from the Huntington Beach road, will be eighty feet wide.

Capt. A. Duks, for many years has been in charge of the transportation of the Atlantic, Gulf and Pacific Company's dredgers. There are twenty of them, operating on both sides of the United States. With all his years of experience, the captain hesitated over the Alamos Bay job. Said he yesterday:

"I think if this dredger was again lying outside in the open ocean, and some one would lay down a \$500 check for me if I would bring her in through that narrow channel again—well, that check would still be untouched. I tell you, I never expected to get her safely through, and I never breathed a word until she was safely inside the bay."

"Up at Cape Flattery the waves dashed over the deck, and we had the biggest dredger on the Pacific Coast, and the journey it undertook is a remarkable one for this kind of transportation."

There were thirteen men and one woman on the big dredger during this long trip. They refused to be transferred to the tug, preferring the more commodious quarters on the big float, despite its tendency to roll.

WOMAN TELLS OF DIRE PLOT.

Mrs. Mary Buck Accuses
Husband, Now Divorced.

Alleges Attempt to Railroad
Her to Asylum.

Complaint May Issue Against
Man and Nurse.

A pitifully cruel story of hardship and inhuman treatment, ending in an alleged attempt to take the sufferer's life, or worse, have her incarcerated in a madhouse, has been brought to light by the Women's Civic Federation of Pico Heights in the case of Mrs. Mary A. Buck, a member.

Mrs. Buck, who is about 50 years of age, has returned to her home at No. 2528 West Pico street, after an absence of six months, during which time she was in hiding, in fear of her life.

She is a quiet little woman, who has the misfortune to own about \$10,000 worth of property in her own name on Pico street. This, she says, was the origin of her trouble.

She was divorced from George Buck

drug, which I knew was gradually driving me crazy. I fought against this with all my strength, but was over-
come.

"I did not know what to do, and was afraid to eat or drink anything for fear of being drugged. I asked the nurse what she was in the house for, and on whose orders. She said that my husband had hired her to come to the house, and attend a very sick woman, and that I was the woman.

"She told me they were making preparations to take me to the insane pavilion at Highland. I told her my story and showed her the bruises on my body and legs. She asked me a number of questions, and then suddenly said: 'You are not crazy, and I am going to leave this house.' She left the same day.

"A second nurse was quickly secured, and my husband remained in the room until she came. This second woman was wicked and cruel. She treated me worse than the first one, and at intervals I was given a drug which was slowly driving me out of my mind.

"For ten days, which were a living hell, I was kept in bed and treated as insane. Time and again I tried to steal to the window or get to the phone to call for help, but either my husband or this second nurse would drag me back to bed. During all of the time I was driven me insane, my husband slept with me every night while the nurse was off duty.

"This nurse was finally frightened away, and a third one was secured. At this time my husband had appeared in court and asked that I be adjudged incompetent, and he be given charge of my property.

"He told the court officials that I was insane. During that time in Highland Asylum, while I was locked in that upstairs room at my home.

"Saturday morning of that week was

about eight months ago on the ground of gross cruelty. He had applied for a divorce, and she had refused to sign the papers. The facts back of the case never were known until the Women's Civic Federation of Pico Heights took it up.

Mrs. Buck has been a member of the organization for years. About a year ago she was reported at her home, but no one was allowed to see her. This was followed by applications by George Buck to have her adjudged insane.

Then six months of absence, and the Women's Civic Federation had almost forgotten the woman, when a little note, scrawled on a piece of commercial paper, was received by the officials of the federation, begging, in God's name, for the advance of \$5 to save Mrs. Buck from starvation.

FIND WOMAN STARVING.
With consternation, the good women read the communication.

Mrs. Mary McPaul, who lives at No. 2528 Sepulveda street, and is a member of the Women's Civic Federation, was delegated to go to the address given and investigate.

She was not a day too soon. She found Mrs. Buck in a small room barely furnished. The woman was ill for want of food. She had not eaten for three days, and was absolutely penniless, although she still owned property worth \$10,000.

The federation immediately went to the rescue, and Mrs. Buck returned to her home.

This was ten days ago. She has now almost recovered from her experience, and has related the entire story of her suffering to the Women's Civic Federation.

As a result action looking toward the arrest of George Buck, her former husband, and the trained nurse, is expected to be taken by the federation.

The ladies of the federation yesterday stated that they will personally take the matter before the District Attorney. The case is of the kind usually taken up by that official.

In a signed statement to the Civic Federation and to the public, Mrs. Buck told her story, only, she says, that she has cleared her good name of the stigma of being insane. Mrs. Buck's statement follows:

the time appointed to get me away from the house and to the asylum. A messenger arrived and gave me a nurse a bottle, which I afterward found out contained morphine.

"This third nurse was a good woman, and she soon found out that I was not insane, so she did not give me medicine, and when the time came for me to be taken away my husband drugged into unconsciousness as was desired, so the attempt was postponed.

"The nurse helped me and said she would stay with me until I could get matters right. It was necessary for my husband to give \$4000 bond to have me taken to the asylum, and he asked a man whom he thought was his friend, but whose family knew me well, to sign his bond. This man came to the house and refused to sign the bond until he had seen me. When he entered the room I rushed to him for protection, pouring out my story. My husband seized me and forced me back to bed, saying that I was becoming violent.

BIG MAN'S GRIMACES.
"Two days later, with the aid of the nurse, I escaped, and went to the County Recorder's office, where I was shown the papers in the insanity case made out by my husband. I determined to checkmate him and returned quietly to my home. That afternoon while I was seated in my room with the nurse close by and my husband in the hallway a big man walked into my room and acted in a foolish manner. He waved his hands before my face and made grimaces at me.

"If I had not been so weak with fear it would have been laughable.

"I understand now that the man was a hypnotist, or thought he was, and was trying to use his alleged force on me, at the insane asylum. He left shortly, much disgruntled.

"During this time my husband had secured a decree on the ground that I was insane. He had stated all along that I was in an asylum. The enforcement of the decree was waiting upon a bond of \$4000 from my husband.

"Attorney W. R. Bacon, an old friend of my family, saw in the paper of the action of my husband, and succeeded in communicating with me. He took up my case quietly and before my husband knew of it, had entered an application for divorce and to set aside the decree of incompetency. The publicity of the affair had estranged my friends. I thought, but later I found that they had heard I was only very ill and could see no one.

"My husband was frightened at the suit from me for divorce, and entered a counter suit, and succeeded in getting my only daughter to swear to me being a confirmed morphine user and intemperate.

"Happily I secured the divorce, and my husband's plea was thrown out.

SIX MONTHS IN HIDING.
"The shame and disgrace of the whole thing he could not stand, and I was determined to hide myself. I secured a room at No. 313 West Seventh street, and lived there for six months until all my money was gone. I feared to go to my own home, which was now truly my own, for I was afraid of what my husband's plea was thrown out. He had lost his object.

"When these kind friends of mine in the Civic Federation found me, I was near starvation. With Mrs. McPaul I returned to my home. It was my only heavy piece of furniture remained. All bric-a-brac and the little things had been taken away.

"The only object I have in making this awful story public is to vindicate myself and my friends.

(Signed) "MRS. MARY A. BUCK.
"No. 2528 West Pico street."

BUCK NOT FOUND.
All efforts to locate Mr. Buck yesterday and last night were without result and his version of his separation from his wife could not be obtained.

MRS. BUCK'S STORY.
"April 1, two years ago, while I was entertaining company in my home, my husband, George Buck, filed papers in court, asking to have me adjudged insane and incompetent to handle my property.

"This was like a thunderclap out of a clear sky, and for a time I was stunned. I asked an explanation and he told me I was insane. The shock unnerved me, and I was compelled to take to my bed. Then when I again asked an explanation, he asked me to take a trip East to my family in Illinois. I prepared for the trip and just before leaving he asked me to sign a deed for my property to him. I refused, and my trip East was called off.

"When I was brought to the house, I was feeling worried, and unable to explain my husband's actions. He got some medicine for me, which I took once of my own free will, and immediately went to sleep. I must have slept a day or so. When I awakened and tried to get up, I was forbidden. I managed to get out of my bedroom, when he and two other men seized me and forced me back into the room.

"I was horribly frightened and broke away from them, and ran to the window, calling for help. They tore me away from the window, and in the struggle my face, arms and body were bruised, and black and blue marks were all over my body.

DRUG TO DRIVE CRAZY?
"Then while I cried and begged for help, he and the other men held me while I was given an injection of some

WATERY TRIP OF AUTO PARTY.

WET FATE OF FARMERS WHO CAME TO RESCUE.

F. C. Fenner Makes Journey from Red Rock Canyon and Finds Quick-sand in the Soledad-Midnight Chase After Mules That Dumped Farmers Into Creek.

Automobile has its funny side, but the fun isn't always appreciated until afterward. So thinks F. C. Fenner. After an all-night drive he arrived in Los Angeles yesterday forenoon, with the mud and sand of Soledad Canyon still in his clothes and machine. He had a rather strenuous time.

Mr. Fenner is the general manager of the Lowell and California Mining Company, and besides this he has other interests in the country about Mojave. He has his headquarters at Palmdale, where he maintains a garage for his two white machines.

His trip down from there was the first that any automobile party has made since the big rains. He says it will be the last for some time. Then Mr. Fenner prospected and found a rich vein of quicksand in the country about Mojave. He has his headquarters at Palmdale, where he maintains a garage for his two white machines.

Monster Dredger Ready for Action at Naples.

Tomorrow's Dawn Will Start Scooping of Bay.

Evolution of Wonder City Involves Fast Sum.

The mammoth dredger Seattle, largest on the Pacific Coast, will begin tomorrow morning to scoop out of Alamitos Bay sand and gravel, silt and soil, to deepen the bay to a fine stretch of water, navigable by boats of good size. The material taken from the bottom will be used to build up the lands that are to be covered by probably the most picturesque city in the United States—a city of tile-roofed houses, and the general architecture of which will be strictly in accord with the beautiful designs to be found in the Venice and Naples of the Mediterranean.

Naples, the city which is to arise on the water streets of Alamitos Bay, is the largest construction proposition of its kind now before the people of the Southwest.

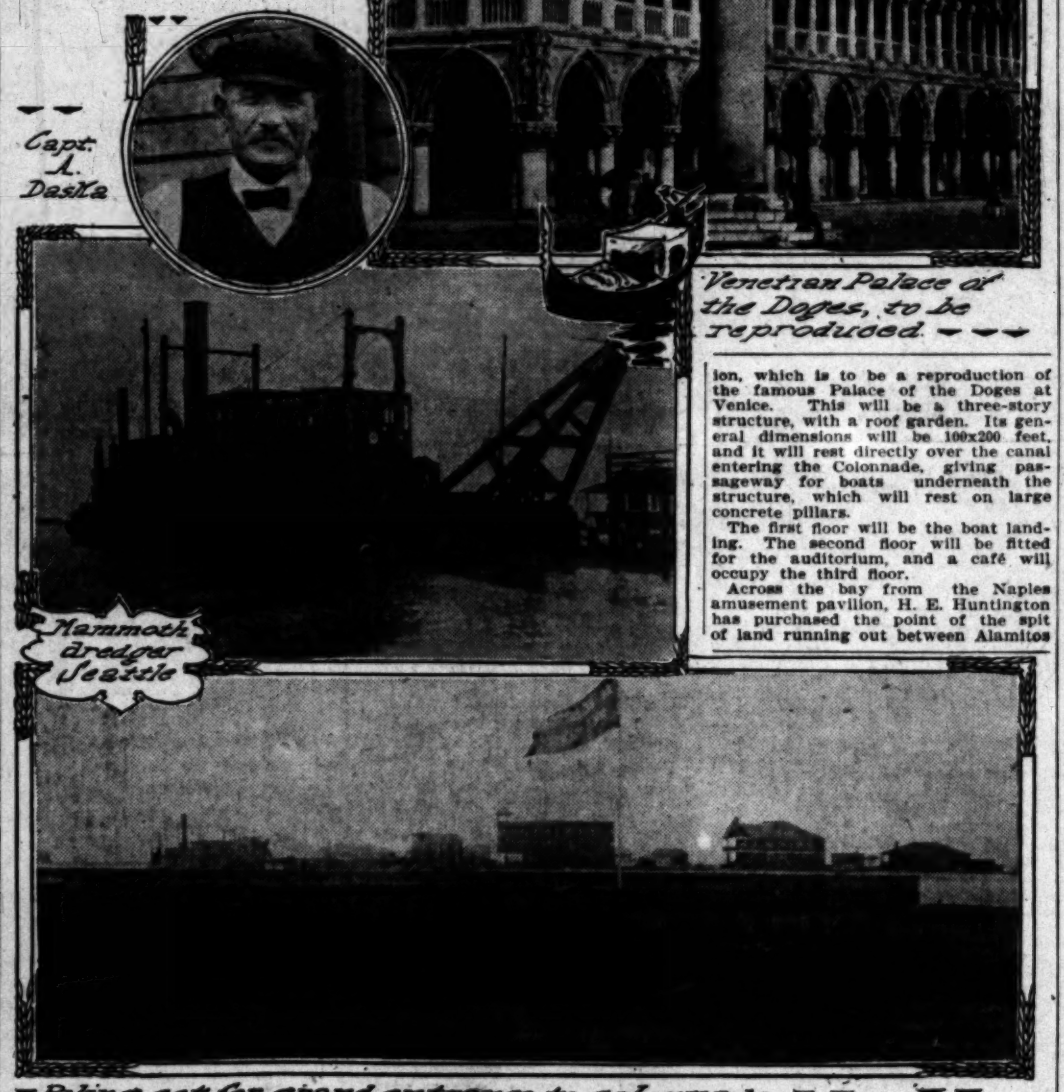

Construction contracts representing an expenditure of \$260,000, already have been awarded. Much more expense will be entailed in the carrying out of the Naples idea. It is said the whole proposition will represent an outlay of at least a million and a quarter of dollars.

Standing forth as a prominent feature in the skyline as one gets within view of Naples is the huge bulk of the steam dredger Seattle, just brought down from the city of Seattle, and anchored

Rising of the new Naples on Alamitos Bay, where a million and a quarter is being expended on improvements. The Venetian Palace of the Doges is to be reproduced at a cost of a hundred and fifty thousand dollars. Great dredging operations will be started tomorrow morning.

In Alamitos Bay, after a series of trying experiences.

The dredger was towed down these 1200 miles by the powerful tug Dauntless. It was carefully prepared for the long journey by the attaching to its sides of large floats to equalize its draught.

RECORD-BREAKING TRIP.
The trip was a record-breaker for this sort of transportation. The entire journey showed an average of six and one-half miles an hour. This great dredger is 175 feet in length over all, and has a 40-foot beam. It draws only seven feet of water.

The apparatus is fitted with a complete machine shop, blacksmithing department, etc. It has a well-appointed galley, where food is prepared for the entire working crew; there are office room, a bunkhouse, etc. A force of thirty-five men is required to operate the dredger when it is working full force.

On the Naples work there will be continuous operation. Three eight-hour shifts will keep the huge thing of wood and steel spouting the earth from the bay's bottom out onto the lands, which have been locked by bulkheads to retain the accretions.

Within thirty days, it is expected, the first section of Naples—land built up by the transfer of part of the ocean bed—will be completed, and ready for the beginning of building. These are to start just as quickly as the dredging work will allow.

frontage. The first one of these is to cost \$3000.

Actual construction on Naples began six months ago. Although a large force of men has been laboring all these months, the work has been of such a character that it makes but little showing at a casual glance. It is, however, the very foundation of the place, which has been in progress. From now onward the work in hand will make a much greater showing.

MILES OF BULKHEADS.
Within the present week the last of the extensive pile-driving contracts for the bulkheads will have been completed. The enterprise provides for almost six miles of heavy bulkheads. These have as their base piles 4x12 inches, set 25 feet into the soil. Every eight feet they are reinforced by inch steel rods. This concrete work will reach to the bottom of the canal, making a solid concrete bulkhead fourteen feet high.

Branching off from the bay proper will be the great semi-circular canal, to be known as the "Rivo Alto." It will be 80 feet wide and one mile in length. Along this canal frontage, on both sides, will lie 15-foot cement walks, and every 300 feet will descend to the water's edge broad flights of concrete steps. Along the entire bulkhead of the Rivo Alto will be placed a series of electric lights, similar to those now in use on Broadway in Los Angeles.

ion, which is to be a reproduction of the famous Palace of the Doges at Venice. This will be a three-story structure, with a roof garden. Its general dimensions will be 100x200 feet, and it will rest directly over the canal entering the Colonnade, giving a sawaway for boats underneath the structure, which will rest on large concrete pillars.

The first floor will be the boat landing. The second floor will be fitted for the auditorium, and a cafe will occupy the third floor.

Across the bay from the Naples amusement pavilion, H. E. Huntington has purchased the point of the water, and is planning a series of land running out between Alamitos

WOMAN TELLS OF DIRE PLOT.

Mrs. Mary Buck Accuses Husband, Now Divorced.

Alleges Attempt to Railroad Her to Asylum.

Complaint May Issue Against Man and Nurse.

A pitifully cruel story of hardship and inhuman treatment, ending in an alleged attempt to take the sufferer's life, or worse, have her incarcerated in a madhouse, has been brought to light by the Women's Civic Federation of Pico Heights in the case of Mrs. Mary A. Buck, a member.

Mrs. Buck, who is about 50 years of age, has returned to her home at No. 2623 West Pico street, after an absence of six months, during which time she was in hiding, in fear of her life.

She is a quiet little woman, who has the misfortune to own about \$10,000 worth of property in her own name on Pico street, she says, was the origin of her trouble.

She was divorced from George Buck

drug, which I knew was gradually driving me crazy. I fought against this with all my strength, but was overcome.

"I did not know what to do, and was afraid to eat or drink anything for fear of being drugged. I asked the nurse what she was in the house for, and on whose orders. She said that my husband had hired her to come to the house, and attend a very sick woman, and that I was the woman."

"She told me they were making preparations to take me to the insane pavilion at Highland. I told her my story and showed her the bruises on my body and legs. She asked me a number of questions, and then suddenly said: 'You are not crazy, and I am willing to leave this house.' She left the same day."

"A second nurse was quickly secured, and my husband remained in the room until she came. This second woman was wicked and cruel. She treated me worse than the first one, and at intervals I was given a drug which was slowly driving me out of my mind."

"For ten days, which were a living hell, I was kept in bed and treated as insane. Time and again I tried to steal to the window or get to the phone to call for help, but either my husband or this second nurse would drag me back to bed. During all of the efforts to drive me insane, my husband slept with me every night while the nurse was off duty."

"This nurse was finally frightened away, and a third one was secured. At this time my husband had appeared in court and asked that I be adjudged incompetent, and he be given charge of my property."

"He told the court officials that I was confined at that time in Highland Asylum, while I was locked in that upstairs room at my home."

"Saturday morning of that week was

about eight months ago on the ground of gross cruelty. He had applied for a divorce, and been refused.

The facts behind the case never were known until the Women's Civic Federation of Pico Heights took it up. Mrs. Buck has been a member of the organization for years. About a year ago she was reported ill at her home, but no one was allowed to see her. This was not a case of insanity, as George Buck told her adjudged insane.

Then six months of absence, and the Women's Civic Federation had almost forgotten the woman, when a little note, scrawled on a piece of commercial paper, was received by the officials of the federation, begging, in God's name, for the advance of \$3 to save Mrs. Buck from starvation.

FIND WOMAN STARVING.
With consternation, the good women read the communication.

Mrs. Mary McPaul, who lives at No. 2525 Sepulveda street, and is a member of the Women's Civic Federation, was delegated to go to the address given and investigate.

She was not a day too soon. She found Mrs. Buck in a small room barely furnished. The woman was ill for want of food. She had not eaten for three days, and was absolutely penniless, although she still owned property worth \$10,000.

The federation immediately went to the rescue, and Mrs. Buck returned to her home.

This was ten days ago. She has now almost recovered from her experience, and has related the entire story of her suffering to the Women's Civic Federation.

As a result action looking toward the arrest of George Buck, her former husband, and one training nurse, is expected to be taken by the federation.

The ladies of the federation yesterday stated that they will personally take the matter before the District Attorney. The case is of the kind usually taken up by that official.

In a statement to the Women's Civic Federation and to the public, Mrs. Buck has told her story, only, so, she says, that she may clear her good name of the stigma of insanity. Mrs. Buck's statement follows:

MRS. BUCK'S STORY.
"April 1, two years ago, while I was entertaining company in my home, my husband, George Buck, filed papers in court, asking to have me adjudged insane and incompetent to handle my property."

"I was like a thunderclap out of a clear sky, and for a time I was stunned. I asked an explanation and he told me I was insane. The shock unnerved me, and I was compelled to take to my bed. Then when I again asked an explanation, he asked me to take a trip East to my family in Illinois. I prepared for the trip and just before leaving he asked me to sign a deed for my property to him. I refused, and my trip East was called off."

the time appointed to get me away from the house and to the asylum. A messenger boy arrived and gave the nurse a bottle, which I afterward found out contained morphine.

"This third nurse was a good woman, and she soon found out that I was not insane, so she did not give me medicine, and when the time came for me to be taken away I was not drugged into unconsciousness as was desired, so the attempt was postponed."

"The nurse helped me and said she would stay with me until I could get matters right. It was necessary for my husband to give \$4000 bond to have me taken to the asylum, and he asked a man whom he thought was his friend, but whose family knew me well, to sign his bond. This man came to the house and refused to sign the bond until he had seen me. When he entered the room I rushed to him for protection, pouring out my story. My husband seized me and forced me back to bed, saying that I was becoming violent."

BIG MAN'S GRIMACES.
"Two days later, with the aid of the nurse, I escaped and went to the County Recorder's office, where I was shown the papers in the insanity case made out by my husband. I determined to checkmate him and returned quietly to my home. That afternoon, while I was seated in my room with the nurse close by and my husband in the hallway a big man walked into my room and acted in a foolish manner. He waved his hands before my face and made grimaces at me."

"If I had not been so weak with fear it would have been laughable."

"I understand now that the man was a synonym. He thought he was, and was trying to use his alleged force on me, at the instance of my husband. He left shortly, much disgruntled."

"During this time my husband had secured a decree on the ground that I was insane. He had stated all along that I was in an asylum. The enforcement of the decree was waiting upon a bond of \$4000 from my husband."

"Attorney W. R. Bacon, an old friend of my family, saw in the paper of the action of my husband, and succeeded in communicating with me. He took up the stigma and before my husband knew of it, had entered an application for divorce and to set aside the decree of incompetency. The publicity of the affair had estranged my friends, I thought, but later I found that they had heard I was only very ill and could see no one."

"My husband was frightened at the suit from me for divorce, and entered a counter suit, and succeeded in getting my only daughter to swear to my being a confirmed morphine user and incompetent."

"Happily I secured the divorce, and my husband's plan was thrown out."

SIX MONTHS IN HIDING.
"The shame and disgrace of the whole thing drove me almost wild, and I determined to hide myself. I secured a room at No. 312 West Seventh street and lived there for six months until all my money was gone. I feared to go to my own home, which was now truly my own, for I was afraid of what my husband's plan was thrown out. He had lost his object."

"When these kind friends of mine in the Civic Federation found me, I was near starvation. With Mrs. McPaul I returned to my home. It was empty. Only the heavy pieces of furniture remained. All bric-a-brac and the little things had been taken away."

"The only object I have in making this awful story public is to vindicate myself and my friends."

(Signed) **MRS. MARY A. BUCK.**

AS TO DRESS.

As to dress, much discussion has arisen regarding "the proper thing." As for the ladies, it's none of your business, for they are privileged and will wear what suits them best and what tends to accentuate beauty most. But the men, aye, there's the rub, and it's up to "his nobs" to get busy with his tailor or the haberdasher.

The conventional full dress, that heaven-blessed article to which mortal man can retreat when really gill-edged functions are the order, will again help him out of a dilemma, but there is something in the way he must don it on this occasion.

"Being a night affair and under roof the gentlemen should wear the conventional full dress coat, a white waistcoat, silk hat and of course full dress trousers. At an afternoon affair the English walking coat and trousers to match, with fancy waistcoat. This is

the correct dress at the New York horse show, and nothing else would be proper for an evening show but the above," says one well-known tailor.

There would be proper for an evening show. The regulation opera hat should be worn, and during the parade it should be crushed and carried under the left arm," says another.

The Sartorial Art Journal, commenting on the dress of men at the New York Horse Show, says: "During the evening men, to a considerable number, who looked as though they were used to wearing good clothes, showed that they either placed little value on the opinion of others or were grossly ignorant of the polite usages of society, by wearing the dinner coat and opera hat; but the great majority of the men whose appearance was presumptive evidence of intelligence and refinement wore the conventional evening suit, the coat of which is, of course, the 'tuxedo,' low-cut, and the white waistcoat was a rule, single-breasted. Among the accessories were the silk hat, heavy-weight white gloves, poke or straight standing collar, wide wash tie, cluster studs or pearl solitaire, patent leather half shoes. For afternoon wear the frock coat predominated, and while some affected the silk hat the majority chose the derby."

TO ORGANIZE FOR CHASE.

PLANS NOW INCUBATING FOR GREAT HUNT CLUB.

A. G. Park Would Import Standard-Bred English Fox Hounds and Make the Chase a Great Feature of Outdoor Pastimes—Is a Great Hunter Himself.

Before the summer waxes and Reynard has grown sleek and fat upon the spoils of his nocturnal visits to hen roosts and the luckless cottontail, there is to be organized in Los Angeles a hunt club the like of which can be equaled but not surpassed in the West.

Reynard will not be the only sufferer when this organization sallies forth during the crisp autumn days, for his strongest rival, the coyote, will come in for his share of the running, as will also the gray wolf of the dense woodland along the rivers and mountains.

Plans are now incubating for this club. A. G. Park, whose fame as a wolf, coyote, fox and bobcat hunter is well known to sportsmen along the Pacific Coast, is the prime mover. Mr. Park is an attorney, and also a writer for sporting journals on the chase and swift game hunting. He is an enthusiastic sportsman, who indulges for pure sport and nothing else. His packs of wolf, fox and bobcat hounds number dogs famous for endurance and fighting qualities, and at different periods these dogs have been the subject for thrilling articles on bobcat and hunting.

Mr. Park owns a ranch adjoining that of John J. Smith, on the road leading from Lemoor to Tulare Lake, and lying in close proximity to the dense bottoms of the Kern and Kings Rivers. Along these streams bobcats, coyotes and wolves abound, and it is an ideal spot for the sportsman. When not occupied with business, Mr. Park spends much time studying the habits and characteristics of the animals that find refuge in this fertile feeding ground and labyrinth of matted cockleburrs.

It is Park's plan to interest sportsmen in the hunt club, and perfect an organization capable of importing the best fox hounds to Southern California, where they will be divided into packs and kept in kennels under the care of experienced kennel masters. Wolf hounds, such as are already owned by Mr. Park, will be added to the packs until the club would possess dogs for every occasion.

The idea came to Park through the visit of Paul Morton, former Secretary of the Navy, to California some time ago. Morton had heard of the Park packs and being an enthusiastic follower of the hounds, soon became interested in the narratives of large hands of coyotes, bobcats and foxes, and it was planned that a hunt should be held from the Park ranch. Bad weather prevented, but Morton impressed the fact upon the minds of those in the party that he would return to California for a hunt at the first opportunity, and would also try to persuade President Roosevelt to take a whirl west during his vacation and spend a week on Kern River chasing coyotes and bobcats.

At present there is no club of sufficient magnitude to offer hospitality to hunters, and although there are several good packs of hounds, fox hunting has been carried on in a desultory manner only.

Already a number of hunters have been approached on the subject of importing the best of outdoor pastimes, and it promises to bear fruit. It is the desire that all interested parties communicate with Mr. Park and the organization will go ahead to completion.

Long experience with hounds has taught Mr. Park many things regarding how to get the best out of a hunting dog and to make him perform the duties required of him and at the same time safeguard him from becoming spoiled through lack of the wrong game.

The problem of sending wolf hounds against bobcats was solved a short time ago in the capture of a huge bobcat on Kings River. These animals are fleet enough and possess wonderful endurance and fighting powers, but their gameness is too great for their wily foe, who takes advantage of close-quarter fighting to wreak deadly vengeance. The mongrel fox hound appears to be a better dog for this purpose. He is a good trailer, has gameness enough to tackle anything, but does so with caution, knowing full well what is stored away in the velvety paw of a bobcat.

In taking dogs to the chase, Park always provides himself with antiseptic, bandages and lotions to alleviate suffering in case a dog is mauled. He also takes along a spring wagon to which two good running horses are attached, and on the rear of the rig is a crate in which the dogs are transported to the scene of action. This first method often saves the life of a valuable dog, and the latter takes the pack to the hunting grounds fresh and eager for the chase. On the return tired dogs find rest and comfort in the crate.

BROOM HANDLE WINS. MONTGOMERY HANDICAP.

(BY THE ASSOCIATED PRESS-P.M.)

MEMPHIS (Tenn.) April 16.—The spring meeting at Montgomery Park opened today under the most favorable auspices. The feature event on the card was the Montgomery handicap, the first big race of the year in the West, which was won by Broom Handle, after a burst of speed through the stretch. The field was sent away to a good start, with Dr. Gardner, the California crack, in front. He maintained his lead, followed by Rapid Water and Lady Navarre, with the others closely bunched, until he struck the hill at the three-quarter pole, where he dropped back and gave way to Hyperion II, who piloted the field until the head of the stretch was reached. Here Broom Handle, who turned wide, came on the outside of the track and with a magnificent burst of speed, passed the judge's stand a winner by half a length. Navarre, in a driving finish with Rapid Water, got the place by a neck. The others were strung out. Results:

The Montgomery Handicap, 13200 added, mile and a sixteenth: Broom Handle, 119 (Scovill) 15 to 1, won; Lady Navarre, 101 (T. Burns) 10 to 1, second; Rapid Water, 126 (Feicht) 3 to 1, third; Hyperion II, 100 (L. J. Smith) 4 to 1, fourth; Bannockville, 100 (La. Pucelle) 5 to 1, fifth; Hyperion II, 100 (Little Scout) 6 to 1, sixth; Dr. Gardner, 100 (Red Leaf) also ran.

ROSEBEN GETS THE CARTER.

Eleven to Five Laid Against the Favorites, and Ten to One on the Second Horse.

(BY THE ASSOCIATED PRESS-P.M.)

NEW YORK, April 16.—Roseben, the popular favorite, carrying top weight of 125 pounds today, won the Carter handicap at seven furlongs, the feature of the opening day of the Metropolitan racing season at Aqueduct the home of the Queens County Jockey Club. The finish was fought out in a hard drive between Roseben and Southern Cross, who were side by side at the sixteenth pole. Red Knight ran into third place, barely nipping the short end of the purse from Whimsical, second choice in the betting. The race was run in 1:25 2-5, two-fifths of a second behind the track record. Roseben was always the favorite, financially and sentimentally. Results:

The Carter handicap, 110,000, seven furlongs: Roseben, 125 (Lyne) 11 to 5, won; Southern Cross, 106 (Baird) 10 to 1, second; Red Knight, 108 (Radtke) 30 to 1, third; time 1:25 2-5. Lord of the Valley, Phil Finch, Grandeur, Bohemia, Whimsical, Goldsmith, Green Room, Bellemere, Hermitage and Grenade also ran.

You can argue and talk and theorize till you're black in the face—but the American roads are still there.

And the Franklin non-jarring sills with four full-elliptic springs is the only construction that will fully prevent American bumps and hollows from shaking the comfort out of motoring.

And the Franklin air-cooled engine that never overheats and has nothing to freeze is the only type of motor entirely adapted to the American climate. Better come and see.

THING

SEATTLE BOYS ARRIVE.

Come From San Francisco to "Play Ball" at the Chutes, and Would "Do Things."

The Seattle baseball team arrived in Los Angeles yesterday from San Francisco, where for the past week they have been manipulating the leather rather unsuccessfully. In that city they won but two out of ten games, notwithstanding they have been practicing hard and patiently for some weeks in Santa Barbara.

Beginning at 2:30 o'clock this afternoon at the Chutes Park, Seattle will play against Los Angeles in a series of six games, expecting to "do things" in a promising manner. Their experiences in the north may have done them good, and it is probable that several interesting games will be seen. The line-up follows:

Los Angeles: Spies, catcher; Blankenship or Jones, pitcher; Gray, pitcher; Bernard, center field; McGilvray, second base; Kane, right field; Cravath, first base; Helmlinger, shortstop; Toman, third base; Mott, Helmlinger, at first base, is considered a strong one. He is a six-footer from Berkeley, an old-time platoon man with a recently developed penchant for the diamond, and if the "uses and advantages" of the gridiron are worth anything, this Herculean acquisition of the Sound City team ought to mean something.

In Honor of Fieldwick.

SAN FRANCISCO, April 16.—In honor of the memory of William Fieldwick, superintendent of the new California Jockey Club, who died yesterday, there were no races on the club's track at Oakland today. The entries for today's races will stand for tomorrow.

Another Race for Vanderbilt.

PARIS, April 16.—W. K. Vanderbilt's Prestige won the Prix Biennial of \$5000 at the Long Champs races today.

RULING OF "BIG NINE."

Colleges Adopting Their Mandates Will Be Eligible to Entry in the Meet at Evanston.

(BY THE ASSOCIATED PRESS-P.M.)

CHICAGO, April 16.—At a meeting of the managing committee of the "Big Nine" colleges, which has in charge the athletic meeting to be held in this city on June 2, it was decided that the meeting will be open to all students of all colleges that adopt the rules of the "Big Nine" colleges. It was also definitely settled that the meeting will be held on the grounds of Northwestern University at Evanston.

Inquiry has been received from Stanford University as to the requirements necessary to enter teams in the "Big Nine" meet.

HOW TO IMPROVE THE FLAVOR OF BEEF

Simple Recipe for Adding To The Richness of Roasts, Balled Meats and Soups.

Beef when roasted or boiled too much loses its rich flavor and often is dry and tasteless. Too much cooking, of course, is not always the cause of its lack of flavor, for the meat itself may not be as fresh and good as it should be. If this is the case, the meat is not even suitable for soup, and unless something is added to increase the richness of the flavor the dish will be insipid.

A very small amount of Culinary's Rex Beef Extract added to the meat or soup will increase the flavor wonderfully. A two-ounce jar of Rex Extract represents about five and a half pounds of specially selected lean beef. All of the flesh and indigestible portion of the meat is removed, leaving only the delicious flavor and muscle building properties, which beef is so well known to contain.

Invalids and children improve greatly in strength by the use of a beef tea made from Rex Beef Extract. The concentrated strength of forty-five pounds of beef into one pound of extract makes it possible for the weakest stomach to digest the tea and for the system to obtain the full value of the concentrated strength of the beef. All druggists and most grocers sell Rex Beef Extract.

RESULTS AT LATE ELECTIONS
PLEASE DR. CHAPMAN.

Victory at Santa Paula Hailed as
Start of Liquor Banishment from
Cities of Ventura County—Mar-
velous Growth of "Anti" Sentiment
in Past Seven Years.

Dr. E. S. Chapman, superintendent
for Southern California of the Anti-
Saloon League, has been busy at head-
quarters of the league in the Union
Trust building, the past few days, clos-
ing up the details of the organization's
work in the recent municipal cam-
paigns in neighboring places.

"National City, San Diego county,
is the only place in Southern California
under prohibition, which, at this
election, voted in favor of license. The
majority there was only nine. The
Anti-Saloon League did not take part
in the election, but the result was
entirely in favor of license."

"At Santa Paula, Fullerton, Corona
and San Jacinto, where there were
saloons, the popular verdict was against
their continuance. The struggle at
Santa Paula and Fullerton were espe-
cially severe, as the liquor men fought
with desperation to retain their hold.
At Fullerton the majority against the
saloon was nearly two to one."

"When the will of the people, as ex-
pressed at the ballot box in Corona and
San Jacinto is carried out, Riverside
county, for the first time, will be under
prohibition from boundary to bound-
ary."

"A vigorous effort was made to in-
troduce liquor licenses in Corona, and
everywhere drug store beverage liquor-
selling privileges. These were unsuccess-
ful. It is probable that the liquor
men of Los Angeles put forth their

This is a high-contrast, black and white image showing a close-up of a textured surface. The image is oriented vertically. On the right side, there is a large, dark, irregular shape that appears to be a shadow or a part of the object being photographed. The rest of the image shows a series of vertical lines and textures, suggesting a book cover or endpaper. The lighting is very dramatic, with deep blacks and bright whites, creating a stark, almost abstract effect.
